ARES BARSTOOL

ABOUT THE ARES BARSTOOL

The Ares Barstool by Siesta is no ordinary plastic Stool. It's extraordinary strength is due to the entire stool being one-piece injection moulded polypropylene, the legs reinforced with glass fibre for even more stability. The plastic is packed with UV stabiliser, so this stool will not fade or go brittle even in the sunniest weather conditions. Siesta's Ares Barstool is built to last in busy commercial venues, indoor or outdoor.
