#### Use Instruction

#### Please read this instruction carefully before using this furniture. To extend its longevity, please use and maintain it properly.

#### Things of notice:

- Don't put furniture directly under sunlight or near AC vent or radiator to avoid color fading, shedding edge band or even distortion.
- Don't tilt desk or chair to avoid broken feet or loose connection.
- Don't put hot or icy objects directly on it to avoid color change or indelible marks.
- Don't push items on furniture directly to avoid scratches.
- Lift the furniture for about 10 mm off the ground when it has to be removed as a whole to avoid possible damages to the bottom and connector part.
- It is suggested to put a soft cloth underneath if you want to lay heavy or hard items on the furniture.
- Use a soft cotton cloth or feather duster for cleaning and maintenance.
- Use detergent specially designed for furniture instead of chemical detergent or acid liquid for lampblack and other stain removal.

#### Simple malfunction analysis and solution

#### Remove stains

- Paper mark: Immerse paper in salad oil and wait several minutes. Wipe the furniture with furniture-used steel wool along the grain and then polish it.
- Food stain, Stain of tea, vegetable, fruit, butter leaves slight traces on the surface and should be wiped out immediately.
- Paint: For water, based paint, use soft and wet cloth to wipe it; for oil paint, let it dry up naturally and gently shave it with a blunt spatula or hard cards
- Nail polish/nail polish remover: As chemical solvent, they should be wiped immediately.
- Alcohol: If perfume/cocktail/medicine liquid spills out, let them dry up naturally.
- Chewing gum: Shave it with blunt spatula or hard card after cooling it with ice bag or cold water.
- Ball, pen/ink mark: Use soft eraser to rub it or sprinkle several drips of water. Avoid chemical solvent with alcohol or high corrosive ability.
- Suggestion: Furniture, used steel wool can be bought at building material & hardware stores. (Don't use kitchen steel wool).
- Note: The above suggestions may bring different results due to different operations of each person. It would be better if you can test it in inconspicuous area first.
- There may be cases as listed in the following list after long time of using. Please refer to correspondent measures.

Malfunction	Reason	Solution	
the banding edge is loose	ambient environment	use hairdryer or iron to melt the glue and stick it at once	
drawers can't be opened smoothly	lubricating oil is drying up	remove the drawer out, add lubricating oil or wax to the slide	
uneven desktop	the adjustment leg is not properly adjusted	adjust it accordingly	
sliding door slides out of the side panel	sliding door positioning parts are loosing or sliding door top bead slides down	return the sliding door positioning parts and sliding door top beads to original positions	

#### Assembly instruction:

- Please determine the location of your furniture before assembly to avoid moving them for a large distance after being assembled.
- Do not place your furniture in dark and damp or hot and dry environment.
- Please check the direction of each part when unpacking them before installation.
- Please check the stability of the furniture after installation. Shake your furniture gently to confirm whether it is level with the ground or whether the screw is tight.
- Please install the product patiently. Make sure each part is in the right position. Furniture is easy to assemble, but it needs patience and care to make every part in place.
- Please check the number of packaging bags, view the product installation manual and verify the product structure
- Please keep the furniture open for a period of time to release residual painting smell

#### Note:

② Handle it with care. Use a protection layer.

① Move it carefully with at least 2 people
