X9 Performance Product Information

Warranty

X9 Performance warrants that this product will be free from defects in title, materials and manufacturing workmanship for one year from the date of purchase. If the product is found to be defective then, as your sole remedy and as the manufacturer's only obligation, X9 Performance will repair or replace the product. This warranty shall not apply to products that have been subject to abuse, misuse, abnormal electrical or environmental conditions, or any condition other than what can be considered as normal use.

Limitation of Liability

The liability of X9 Performance arising from this warranty and sale shall be limited to a refund of the purchase price. In no event shall X9 Performance be liable for costs of procurement of substitute products or services, or for any lost profit, or for any consequential, incidental, direct or indirect damages, however caused and on any theory of liability, arising from this warranty and sale. These limitations shall apply not with standing any failure of essential purpose of any limited remedy.

Installation Instruction

The X9RF2AAKEY and X9RFXMOUSEB are pre-synced with the USB RF receiver dongle, and should be automatically recognized by the computer and does not require a driver. Simply follow the steps below and you are ready to go!
1. Locate the USB receiver dongle, in its plastic bag.
2. Plug the USB receiver dongle into the USB port of your computer.
3. Install "AA" batteries(included) in the battery compartment of X9 keyboard and mouse.
4. You are ready to use the X9 keyboard and mouse.

Shortcut Keys

Below are the description of all 16 blue colored shortcut keys which require pressing fn key simultaneously to work.

⚙ Open System setting
🖑 Default web browser
✉ Open email program
🗀 Open Windows File Explorer
🖶 Print
♫ Default music player
⊲⊲ Previous Track
⊳❙❙ Play/Pause

⊳⊳❙ Next Track
⊲✕ Mute
⊲ Volume Down
⊲)) Volume Up
🖥 Lock Windows PC
🖩 Open Calculator
☀ Brightness change to PC built-in display

Please note:
1. Home, End, PgUp and PgDn, 4 blue colored keys also require pressing fn key simultaneously to work;
2. 🔍 is Open Windows Search shortcut which works by itself.

Sync USB RF Dongle with Keyboard/Mouse

Note: only if you have followed the Installation Instruction several times already but couldn't get keyboard and/or mouse to work, or if you lost the original USB RF dongle and get a new dongle from us, you can resync the dongle and keyboard/mouse with procedures below:

1. Login to your computer.
2. Remove battery from the keyboard and mouse; unplug the USB RF receiver dongle from your computer.
3. Place the keyboard and mouse very close to the USB port where the dongle will be plugged into.
4. Replug USB RF dongle into your computer USB port.
5. Immediately install battery in the battery compartment of keyboard and mouse, let them find and sync each other within 10-15 seconds.
6. Keyboard and mouse are ready to use. If they do not work, sync has probably failed, please repeat step 2 to 5 until it works.
