X9WWKEYHUB

## 110-KEY SLIM USB KEYBOARD WITH 2 USB PORTS FOR PC

User's Guide

www.x9performance.com

### Introduction

The X9 Performance X9WWKEYHUB is a stylish USB wired keyboard with 2 USB ports, especially designed for PC. It has 110 full size, thin and quiet Scissor-Key-Switch™ keycaps for a sensitive and responsive touch. It also has 17 convenient preset shortcut keys for one-touch control of PC applications and a 17-key numeric keypad to quickly and efficiently enter long sequences of numbers.

The two USB 2.0 ports on the back of the keyboard allow you to use it as a hub and connect other USB devices, such as your mouse, flash drive andl USB device.

The stylish and slim X9 Performance X9WWKEYHUB is a perfect match for your Windows computer as it will greatly help you to increase your productivity!

### X9 Performance Product Information

#### Warranty

X9 Performance warrants that this product will be free from defects in title, materials and manufacturing workmanship for one year from the date of purchase. If the product is found to be defective then, as your sole remedy and as the manufacturer's only obligation, X9 Performance will repair or replace the product. This warranty shall not apply to products that have been subject to abuse, misuse, abnormal electrical or environmental conditions, or any condition other than what can be considered as normal use.

#### Limitation of Liability

The liability of X9 Performance arising from this warranty and sale shall be limited to a refund of the purchase price. In no event shall X9 Performance be liable for costs of procurement of substitute products or services, or for any lost profit, or for any consequential, incidental, direct or indirect damages, however caused and on any theory of liability, arising from this warranty and sale. These limitations shall apply not with standing any failure of essential purpose of any limited remedy.

### System Requirement

- Windows 7/8/10
- Any desktop and notebook computer with a USB-A port available

### Hardware Basics

#### Function keys mode F1 to F12

When Fn Lock LED is on, F1 to F12 function keys are the default when top row keys are pressed. Also 12 blue colored shortcut keys require pressing fn key simultaneously to work. You can toggle between Function key mode and shortcut mode by pressing fn and Esc keys simultaneously, Fn Lock LED is on to indicate it is in Function key mode, otherwise it is in shortcut mode.

### Installation Instruction

The X9WWKEYHUB is automatically recognized by the computer and does not require a driver. Simply plug the keyboard directly into a USB port in your computer and you are ready to go! Two USB 2.0 ports allow you to connect a mouse, a Flash drive or other low power/self-powered USB device conveniently.

### Shortcut Keys

Below are the description of all 17 shortcut keys. 12 blue colored shortcut keys require (1) pressing fn key simultaneously to work when Fn Lock LED is on, or (2) pressing top row key itself to work when Fn Lock LED is turned off by pressing fn and Esc keys together. Pressing fn and Esc keys toggles between Function key mode and shortcut mode of the keyboard.
