

The Great TT Staycation Tour

The *TT City Tour* is missing a stop! Originally billed as an eleven-parter, only ten stops have made it onto the itinerary. We're not sure why one of the stops has mysteriously disappeared, (we're hoping this will become clear later on in our Staycation Tour!), but our tour bus driver has found a set of clues and some strange instructions tucked down the back of her seat. Can you solve the clues and decipher the rest of the instructions to work out where the *mystery location* is?

Stop 01

Truro is the only city in Cornwall, and the home of Treasure Trails HQ, so a great place for our first stop! It is also one of only three cathedrals in the UK to have ? spires.

Stop 02

Salisbury Cathedral is a real treasure trove! Inside, you'll find the world's oldest working clock plus one of only ? surviving original copies of the Magna Carta.

Stop 03

Famous for Coleman's Mustard and Alan Partridge as well as its castle and cathedral, Norwich is also the place where the first UK postcodes were trialled in 195?.

Stop 04

Ely was once an island surrounded by marshland and eels. The World Eel* Throwing Competition is held at the Eel Festival each year. A world record 17.7m was set in 201?.

Stop 05

Bradford is home to the Mirror Pool, 4000 sq ft of water jets and LED lights. The main fountain blasts water over ?00 feet in the air; it's the highest urban fountain in the UK!

Stop 06

Carlisle is home to the oldest sports trophy in the world! The Carlisle Bell horse race has run since 1599; the race trophy consists of ? bells (now too delicate to touch!).

Stop 07

Known as The Granite City (just check out the architecture!), Aberdeen is also home to Scotland's oldest maze! It was planted in Hazlehead Park in 19?5.

Stop 08

Inverness, a city since 2001 as one of the 'Millenium Cities', has a rather unusual law. The 1750s bye-law entitles residents to a free set of bagpipes on their ?0th birthday!

Stop 09

The symbol of Belfast, birthplace of the Titanic, is a seahorse. You'll spot them all over the city! You'll also see Irelands tallest building which stands 8?m high.

Stop 10

Our final stop is St Davids, a city the size of a village with a cathedral bell weighing 2,700 lbs! Like most motorists, we'll be arriving and leaving via the A?87!

First, complete the facts at each stop. You'll need to do some tough virtual research to find the answers. Every answer is a single digit number. Record this in the box by each stop.

Then, put the 10 cities in the following order:

- A - The city which comes first in the alphabet
- B - The Great Border City
- C - The UK's furthest south city
- D - The UK's smallest city
- E - The UK's furthest east city
- F - The furthest west city on our tour
- G - The city with the UK's tallest cathedral
- H - The UK's highest city above sea-level
- I - The UK's furthest north city
- J - The city with the shortest name to write

Next, crack this code to reveal the coordinates of the mystery location:

	A	B	C	D	E		F	G	H	I	J
5	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	,-0.	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Finally, use your coordinates to identify a specific location within the mystery city! Submit your answer at <https://bit.ly/TTStaycation>

*not real eels - soft toys!
