

The Great TT Staycation Tour

The *TT Back to School Tour* is the final leg of our journey! We'll visit some top places of learning and learn a few things ourselves, including why the City Tour was one stop short! If you've completed Legs 1 & 2, you'll know of a *mystery location* and a *mystery item*. Solve this final puzzle to reveal a *mystery person* who we can interview and finally figure out the sub-plot of this tour! We have 13 professors all keeping shtum. They'll only spill the beans if we can prove our clue-solving skills. Can you work out which one of them knows the full story behind why the mystery location was dropped and what the mystery item has to do with it? Good luck Staycationers!

Stop 01

Our tour kicks off at the 8th best university in the world: UCL. Locate the main quad, face the pillars and zoom in on the inscription. Eliminate the professor lurking at the start of the second line.

Stop 02

Sherborne School is one of the oldest schools in the UK! Admire the front of the neighbouring abbey from Half Moon St. A professor is lurking nearby above an arrow at this end of Digby Rd.

Stop 03

Next stop Oxford! Christopher Wren built the Sheldonian theatre for the university in the 1660s. Locate it and study the flat side of it. A professor is lurking above the pillar to the right of the door.

Stop 04

Stowe School has its own golf course and first class cricket ground! Locate the man on a horse by the cricket ground and you'll find another professor lurking on the plinth.

Stop 05

At Cambridge, search the enclosed courtyard behind Queen's College Chapel. Position yourself to get a good look at the sundial. If A=1, B=2, etc., the numbers above and below 6.24 are a professor's initials.

Stop 06

Rugby School, home of...rugby! Locate the Temple Speech Room and study the frontage on the corner for two words in gold. The three extra letters in one and not the other are at the start of a name.

Stop 07

In Aberystwyth, locate the Old College building and study its southern tower to find Archimedes. Look closer, you may have to look from a different angle. What is the man on the left offering?

Stop 08

Visit The Quiet Place at the University of York. Search the grounds for a tall carved tree trunk. A few paces south-west along the path, something metal will match the next professor to cross off.

Stop 09

Visit Palace Green, Durham. You'll find yourselves surrounded by old university buildings. Find the bus stop. A professor is lurking nearby before and after the Roman number eight.

Stop 10

St Andrews University is the third oldest in the English-speaking world! Search along Butts Wynd for Swallowgate. Zoom in on the gate opposite. A professor's initials appear before the later year here.

Stop 11

Albert Einstein gave a lecture at the University of Glasgow in 1933. Snoop around Professor's Square. Opposite No.9, find some gold writing. Half of the letters between R and B will help you.

Stop 12

Our final stop is Queen's University, Belfast. Examine the southern side of The Graduate School. Cross off the professor whose surname rhymes with the one in white on blue on the wall.

What to do: Solve the clues to eliminate 12 of the professors below. Each clue will require you to explore virtually using Google Streetview in order to spot the answers you need. Every answer will help identify one of our professors. Cross them off as you go and you'll be left with one at the end.

Suspect Gallery

A) Prof. Edward Oliver

B) Prof. Archie Peas

C) Prof. Diana Crimson

D) Prof. Harriet Waffle

E) Prof. Tess Memory

F) Prof. Red Rex

G) Professor Pauper

H) Prof. Pi Parkin

I) Prof. Eric Labcoat

J) Prof. Stu Bones

K) Prof. Em Grapes

L) Prof. Train O'Thought

M) Prof. Ringza Saturn
