07. TT Codeword

Welcome to our **pirate-themed codeword!** If you're new to codewords, see below for instructions. **Once solved,** use the number values you've found to complete this sum:

$$P+U+Z+Z+L+E + A+C+A+D+E+M+Y$$
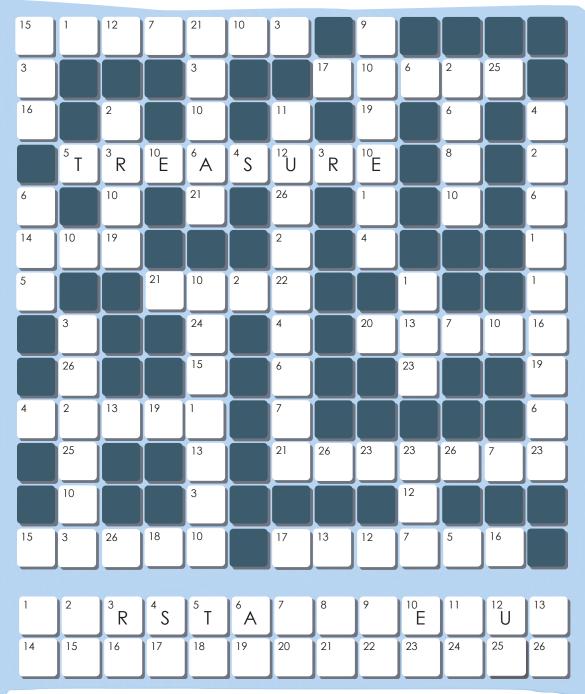

Submit this total as your answer.

How to solve:

A codeword is **a crossword with no clues!** Instead, every letter of the alphabet is represent by a number, **1-26**. All you have to do is decide **which letter is represented by which number!**

We've given you six letters to start you off. Fill in these letters in the rest of the grid. For example, you know that the **number 5 is a T.** So write 'T' in all the boxes with the number 5.

When these letters have been entered, you should have enough information to start guessing words and discovering other letters. **If you get stuck, this is a pirate-themed puzzle** so that should help you come up with possible words! Remember, **all 26 letters of the alphabet** appear in the puzzle at least once.

Puzzle Answer:

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z
