

Save the TT Super Cone!

The TT Super Cone was once the ice cream of choice for weary explorers. It was made from a whopping five scoops, all layered in a certain order for the ultimate taste experience. Sadly, while on an adventure to her local ice cream parlour, Teresa Trayals let go of the recipe, and it flew away in the wind!

She can't remember the all-important scoop order, but she has written down everything she knows. Can you figure out the order and recreate the iconic recipe?
