

Sizing

Take a measurement of a ring you already own

Choose a ring that is the right size for the expected finger. This page should be printed without scaling. Using a ruler to calculate the scale here below to make sure you printed it correctly.

The circle that corresponds to the diameter of the interior of your ring is your ring dimension.

Need more help?

We can send you a free ring sizer in order for you to choose the correct size when ordering a ring. Please contact us at info@nayestones.com and give us your details and the ring you would like to purchase.
