**ATTENTION iLINK for CARPLAY USERS:**
Firmware Version 1.3.0 IS REQUIRED FOR FUNCTIONALITY OF THE iLINK

Dynavin N6 Firmware Update Instructions- Version 1.3.0

Dynavin N6 firmware updates are available on Dynavin's website www.dynavin.com. To check your current firmware version, swipe left and select the "Info" icon on the Dynavin's main menu. Look at the number on the first line.

1) At www.dynavin.com, go to the bottom of the page and click the link "Dynos 1.3.0 is available to download now!" as shown below.

2) Follow the link provided on step 1 of the PDF instructions page to access the firmware software via Drobox as shown below.

3) Click download. (You do not need to create a Dropbox account to download.) The files download will be a .rar compressed file. If you do not have a utility capable of extracting .rar files, you will need to get one. We use a free utility called "RAR Extract Frog" http://download.cnet.com/Free-RAR-Extract-Frog/3000-2250_4-10804840.html.

4) Once the firmware file has downloaded, right click the file and select "Open With" > "Choose another app" > RAR Extract Frog. OR, upload the file within the app RAR Extract Frog.

5) You should now see 4 files extracted (as shown in PDF instructions in Step 3). Copy or drag the files onto a micro SD card. **DO NOT PUT THE FILES IN A FOLDER.** (Depending on your computer, you may need an SD card adapter in order to insert it into your computer.)

6) Once the <u>extracted</u> files are on it, insert the micro SD card into the "MMC" slot of your Dynavin, swipe left to "Info". (Hint: If the firmware on your card is good and ready to be downloaded, there will be a tiny green light within the "Update Now" button on the screen.)

7) Select "Update Now". It will install and reboot within about 2-3 minutes.

8) Confirm that the update installed properly by swiping left to "Info" on the main screen and checking that it says **DynOS 1.3.0** on the first line.

If you need help, feel free to contact us at J&T Distributing 559.486.4047 8:30AM-4PM PST or email support@jandtdistributing.com.

Thank you!
