

Product Specification

Air 4-Leg Stacking Chair

Seat Shell

The Air Shaped Seat Shell is a one-piece soft polypropylene shell designed with an ergonomic hourglass shape, allowing for proper lumbar and high back-shoulder support. The shell is engineered for the ultimate comfort flexible back. The shell features forty-eight 3/8"-sized holes in the seat and forty 3/8"-sized holes in the back for ventilation. The seat is attached to the frame by means of six steel rivets attached to a fully welded engineered mounting bracket.

Frame

All leg tubes are 1 1/8" x 18-gauge tubular steel. Mounting brackets are 16-gauge. Leg tubes, mounting brackets and saddle support bracket are fully welded together using continuous welds to form a structurally solid, freestanding frame.

Size(s)
