

Product Specification

Smooth Gas Lift Lab Height Chair

Seat Shell

The Smooth Shaped Seat Shell is a one-piece soft polypropylene shell designed with an ergonomic hourglass shape, allowing for proper lumbar and high back-shoulder support. The smooth back features a blow molded cavity for the ultimate comfort flexible back. The seat is attached to the frame by means of six steel rivets attached to a fully welded engineered mounting bracket. Seat shells must have a handle grip hole. Other custom colors available based on minimum volumes.

Frame

Frame is a five star black nylon base. Gas cylinder number 210 adjustment 21"-28". Heavy duty seat plate with direct contact adjustment level. Standard chrome foot ring.
