ace

The Ace Collection was created with diversity in mind. Whether you have a small or large space catering to children or adults, Ace provides plenty of seating options for either collaboration or independence and enables you to create your unique look and layout.

flexxform

Design

Flexible. Modular. Unique. Ace is made up of numerous variations of curves, benches, armless, and standard pieces. This allows Ace to have a unique pattern and look every time it is placed in a new environment. Designers are given the freedom to create their own designs while using multiple Ace pieces. It also features a stunning back overlap, making contrasting upholsteries a must in this versatile collection.

Performance

All of the foam components are environmentally friendly and California TB117 compliant

India Tape is utilized in the seams to ensure Ace is kept bed bug proof

Ace's frame is constructed of solid Canadian hardwood with plywood components

All joints in the wood are glued and stapled to double the strength

Noise-canceling fabric is used to cover the back springs, to prevent unwanted squeaks and damage to the foam

Ace Collection

Designed by Francisco Silva

Growing up in the Azores Islands, Francisco moved to Canada in 1976.

After moving to Canada, Francisco spent 16 years working for other companies, before starting a soft seating manufacturing company, Azores Furniture. Every original design was carefully crafted and developed by him. Although more designers have been introduced to the team, Francisco's craftsmanship-like skill continues to play a large part in improving and introducing designs.

Francisco has the eye to take a simple intangible image and turn it into a tangible reality. And not only that but every detail of the design is also considered to ensure every product has the maximum quality and cleanliness.

Even after the ownership change to Flexxform Designs, Francisco is still a vital part of the Flexxform team, coaching, improving, and designing!
