Ultrafabrics Ultraleather

# box

Straight lines and endless configurations. With its multiple options, Box can become one with its environment, fitting seamlessly against outer walls, or as a centerpiece. Box offers seating for large numbers making it not only stunning but practical. The sleek metal leg, used to gang piece of the Box configurations, gives Box a minimalistic look.

## flexxform

## Design

Simple lines and straight edges give Box a classy modern aesthetic. The multiple options of corner pieces, sofas, arms, and no arms give each space the versatility to have its own unique version of Box. With the availability of ganging legs, each piece of a Box configuration can be ganged together using the sleek silver metal leg, ensuring the configuration stays together.

## Performance

All of the foam components are environmentally friendly and California TB117 compliant

---

India Tape is utilized in the seams to ensure Box is kept bed bug proof

---

Box's frame is constructed of solid Canadian hardwood with plywood components

---

All joins in the wood are glued and stapled to double the strength

---

Noise-canceling fabric is used to cover the back springs, to prevent unwanted squeaks and damage to the foam

## Box Collection

Designed by Francisco Silva

Growing up in the Azores Islands, Francisco moved to Canada in 1976.

After moving to Canada, Francisco spent 16 years working for other companies, before starting a soft seating manufacturing company, Azores Furniture. Every original design was carefully crafted and developed by him. Although more designers have been introduced to the team, Francisco's craftsmanship-like skill continues to play a large part in improving and introducing designs.

Francisco has the eye to take a simple intangible image and turn it into a tangible reality. And not only that but every detail of the design is also considered to ensure every product has the maximum quality and cleanability.

Even after the ownership change to Flexxform Designs, Francisco is still a vital part of the Flexxform team, coaching, improving, and designing!
