

Strive[®]
High Density Seating
simple flex comfort and versatility

Furnishing Knowledge[®]

Strive® High Density Seating

Strive embodies comfort, elegance and affordability.

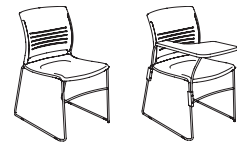

Other high-density seating doesn't stack up to Strive's level of comfort. Its flex back encourages movement and relaxation. The back curve provides lateral support and the contoured seat dissipates pressure points.

Strive presents a clean, elegant aesthetic. The simple design blends with a wide variety of architectural styles and coordinates with other Strive seating.

Strive redefines value. Made of low cost, readily available materials, it delivers unprecedented comfort to a wide audience.

Designed by Giancarlo Piretti.

Specifications

Stacks 20-high on dolly (poly)

Stacks 10-high on dolly (uph seat)

Stacks 6-high on floor

400-pound weight rating.

15-year warranty.

Strive works hard in a wide variety of settings. Its durability is proven. An accredited test lab flexed the Strive back one million times—that's eight times the BIFMA standard. Its versatility makes it perfect for multi-purpose rooms and its array of colors lets it adapt to any interior design. Upholstered seat pads available. Optional tablet arms are ideal for educational settings. Create your own virtual spec with our See It Spec It visualization program at ki.com/seeitspecit.

Slats in the back permit flexing, while thin, hidden steel rods provide support.

An integral handle allows for easy lifting, moving and stacking.

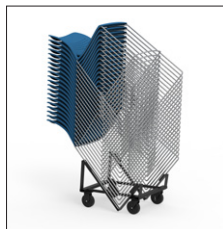

Upholstered seat pad enhances comfort.

Optional ganging glide (shown) or a variety of standard glides allow you to find the best glide for your floor surface.

Stools stack 6-high on floor.

Stools stack 20-high on dolly.
