### Teacher's Personal Storage

The **Transfer Teach** equips the teacher with a mobile storage space with lockable castors. As a freely mobile element, it can accompany the teacher anywhere in the room or building. All elements of Shift+ are designed so that mobility does not end at the door of the classroom.

### Lockable Door

The **Transfer Teach** cabinet is helpful for equipping the teacher with a lockable door. Connecting magnets on each side secure multiple elements together, or they can be used as a stand-alone unit.
