For Magnet Mount or Wall Mount:

– Installation Guide
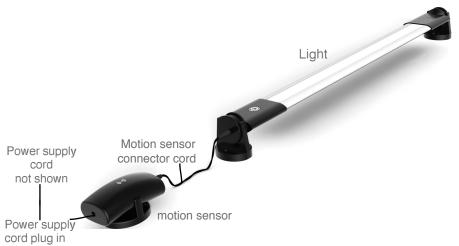

Wood Mount: To mount light to wood use a pencil to mark the hole positions on each side of the base. Fasten both clips under wood cabinet using provided screws.

Magnet Mount: Magnets are pre-installedinto brackets. Place light where needed. Attach power into end of light and plug into wall. To turn off or on wave hand in front of white power button about 2" away from surface.

Magnet Pre Installed
