

Amplify Upholstered Back Lumbar Adjustment

SitOnIt • Seating®

UPHOLSTERED

Amplify upholstered back features Dynamic Lumbar, a unique, patent-pending integrated adjustable lumbar positioned within the padding for matchless comfort and maximum ergonomics. The lumbar adjustment range is approximately 3 inches, from 6.5" – 9.25". Range is the measurement from the top of the seat to the tip of the lumbar.

Amplify Lumbar Support

Adjust Amplify Dynamic Lumbar from a seated position. Lean forward and grasp the tabs on both sides of the back. Move them up or down together to the desired position, then lean back.

Amplify Mesh Back Lumbar Adjustment

SitOnIt • Seating®

MESH

The mesh back model sports eye-catching adjustable lumbar bands to softly knead the back, ensuring contoured support and enduring comfort. The lumbar adjustment range is approximately 3 inches, from 6.5" – 9.25". Range is the measurement from the top of the seat to the tip of the lumbar.

Amplify Lumbar Support

Adjust Amplify lumbar support from a seated position. Grasp the tabs on both sides of the back and move them up or down together to achieve optimal support.
