

MIKA™

Design above

SitOnIt • Seating®

The slim, simple, stackable, soft shell chair

Mika sits above most others in its class – and not just because it was a “Best of NeoCon” silver award winner. Mika is elevated. Upholstered or non-upholstered, it reaches new heights in what a molded shell chair can be. From top to bottom, the design flows. Back and forth, the design rocks with 15 degrees of flex. Up and up, the design pushes an upholstered seat farther than ever before. And in the end, you arrive at a place of sit-ability and stack-ability hard to find in something that looks this good.

MIKA
