

2020 Textile Reference Guide

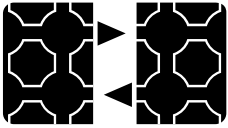

Effective April 1, 2020

Thousands of textiles. Shipped in two, five and 10 days.

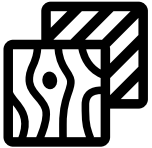

Dealers, designers and end users all agree—our textile program leads the industry in quality, lead time and value-driven pricing. No other seating manufacturer can build the chair you want—and deliver it when you want it—at a price other brands just can't match. In fact, our famous built-to-order promise is founded largely on our customer-friendly textiles program—a program that offers over a thousand textile options shipped in just two, five or 10 days.

WE CARE ABOUT THE DETAILS.

DISCOVER PATTERNMATCH®

Our exact pattern matching service lines up patterns on each chair component (back, front and valence) for a precise, unified look.

EXPLORE MULTI-UPHOLSTERY OPTIONS

Like more than one pattern? Our multi-upholstery option* lets you choose different textile styles for the seat and back for ANY of our applicable models.

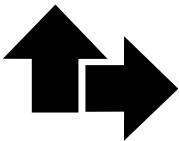

CHOOSE CAL 133 TESTED

We pre-test all of our carded options for both SitOnIt Seating and IDEON to maximize the total number of CAL 133 approved options we can offer.

FIND THE PERFECT COLOR MATCH

Want a monochromatic look? No problem. Our mesh colorways and SitOnIt/IDEON Collection patterns have all been carefully selected to color-match exactly.

SELECT YOUR DIRECTION

Horizontal or vertical? Let us know exactly which way you'd like your selected pattern to fall—we'll follow your lead.

KNOLL TEXTILES SERIES II

We've refreshed our strong partnership with KnollTextiles to continue to offer the industry's largest textile library for specifying all seating solutions – task, lounge, multipurpose and more—with Series II. This ensures we always stay up to date, ahead of the competition, and able to respond to the ever-changing needs of our customers.

Mostly grades 4-5, KnollTextiles Series II is a collection of popular, classic and archive-inspired patterns. The result is a combination of value-oriented pricing, modern upholstery design and leading performance.

HIGH-PERFORMANCE HIGHLIGHTS INCLUDE:

- 50,000–100,000 double rubs
- CAL 133 approved
- Soil- and stain-repellent finish
- Sustainable material construction

ELEVATED DESIGN HIGHLIGHTS INCLUDE:

- Soft-touch feel
- Broad color options
- Archive-inspired patterns
- Organic inspirations
- Multi-toned colors

SitOnIt Seating Textile Upcharges

Textile upcharges for carded fabric and vinyl grades 1-7 and carded leather grades 1-3 are provided in the SitOnIt Seating Price Guide. To calculate upcharges for higher grades, add the price in the right column of the chart below to the highest grade (FG7 or LG3) listed in the Price Guide for the desired product.

Upcharges apply to all SitOnIt Seating upholstery, regardless of collection or model.

EXAMPLE

Amplify upholstered back task chair is the desired product and Maharam Alpine Stripe (FG13) is the desired fabric. Grade 7 for Amplify upholstered back in the Price Guide is + \$296. Add the FG13 upcharge in the chart below (\$330) to the FG7 price (\$296) to arrive at a total fabric grade upcharge of \$626.

Fabric/Vinyl Grade	SitOnIt Textile Upcharge

Unmatched Matching®

Textiles can be everything. With the right fabrics, you can provide atmosphere, create cohesiveness and offer an unforgettable experience across many spaces and places.

Fabric color, alignment, texture, orientation and pattern all play a part—and need to line up or match perfectly (especially with field-replaceable parts). With PatternMatch, pattern alignment and pattern orientation, you can rest assured that every part of every chair can be traded out easily without disrupting design.

PatternMatch®

We ensure that design elements of the back, seat and arms match and/or align between seat and back. The patterns or lines also match unit-to-unit. Standard for IDEON. Not standard for SitOnIt Seating.

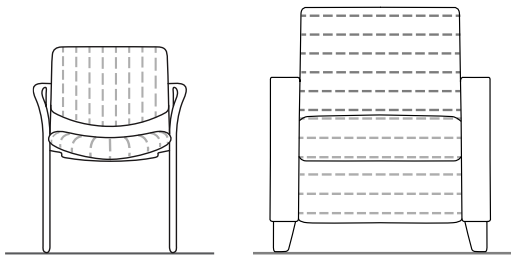

Pattern Orientation

All fabric (vertical, horizontal or bi-directional pattern) will be applied in the direction shown on the fabric manufacturer's website, unless otherwise specified.

To ensure desired fabric direction, use the Custom Upholstery Order Form on page 28 and check the appropriate box under the "Pattern Orientation" section.

When we apply a textile pattern with lines at a 90-degree angle (vertically and/or horizontally) to the back and seat of a chair, we strive to achieve full alignment. Some small variations can occur due to the shape and size of the product. Standard for SitOnIt Seating and IDEON.

Multiple Upholstery

The multiple upholstery option allows one fabric to be selected for the back and a different fabric for the seat. Multi-upholstery pricing is different for SitOnIt Seating and IDEON.

SitOnIt Seating

- Upholstery pricing is based on both seat and back being the same textile. Otherwise:
- If two fabrics of the same grade are chosen, one grade level will be added to the upholstery price. Example: grade 4 for the seat and a different grade 4 for the back, the upholstery price will be grade 5 for both.
- If two fabrics of different grades are chosen, the final upholstery price will be based on the highest grade. Example: grade 2 for the seat and grade 3 for the back, the upholstery price will be grade 3 for both.

IDEON

- A standard upcharge applies to all multi-upholstery orders. Different fabrics and grades may be combined because back, seat, arm and valance are separately priced.
- Add the single multi-upholstery upcharge to the cost of the components. Example: upcharge + any grade price for the seat + any grade price for the back + any grade price for the arm.

Moisture Barrier

Accidents happen. To help protect your investment, moisture barrier for seats and backs is an option on all IDEON seating products.

Specify moisture barrier seats and/or backs in the Material section of the Final Price Calculation worksheet or on your purchase order. Note that specification and pricing are separate for seat and back and apply to each single seat or back position.

Custom Upholstery Order Form

California Proposition 65

California Proposition 65, also known as the Safe Drinking Water and Toxic Enforcement Act, is a law requiring businesses to notify Californians about significant amounts of chemicals in the products they purchase for their homes or workplaces, or that are released into the environment. By providing this information, Proposition 65 enables Californians to make informed decisions about protecting themselves from exposure to these chemicals. Chemicals included on the Proposition 65 list are those that are known to cause cancer, birth defects or other reproductive harm.

Reference the chart below to view textile patterns where the supplier has identified the potential for exposure to a chemical or chemicals on the Prop 65 list.
