

## MILKING PARLOUR

### AUTOMATIC MILKING MACHINE - What is it?

An automatic milking room is a specialized device that allows you to milk cows without much effort. This is especially useful for people who have larger herds and want to be able to milk their cows without having to do it themselves or pay someone else to do it for them.

## Herringbone

Our Herringbone Milking Parlors are ideal for large herd milking with minimal space requirements.

Our herringbone milking parlors offer efficient milking rates, space optimization, and easy installation. With angled rump rails and splash guards, they ensure smooth animal positioning and comfortable milking. The rear stall suspended design provides wide access and clear visibility. Available in 30°, 60°, or 70° side milking configurations to suit your needs.

## Fixed line

Our RTS Pipeline Milking Systems significantly improve operator efficiency and milking rate.

Our Round-the-barn pipeline milking systems streamline barn milking, directly delivering milk to the bulk tank, eliminating the need for separate emptying. The RTS pipeline systems enhance operator efficiency and milking rate, featuring advanced cleaning and rapid cooling for top-quality milk. Ideal for new or existing setups, they cover milking, vacuum, cleaning, and cooling needs.
