#77007 \$ ea.

#### Tarrago Cream Polish

Tarrago Shoe Cream Polish is a soft wax-based shoe cream that nourishes and maintains shoes, boots, belts, handbags, crafts or other leather goods. It shines and enhances the color of leather and synthetic leather and can be used on all natural and smooth leather such as cowhide, goat, pig and equine leather. Enriched with natural waxes like bees wax and carnauba wax, Tarrago Shoe Cream softens and nourishes, providing a lasting shine and waterproof protection. High quality pigments provide great coverage that dries very quickly and is safe for the environment. Available in many colors. 1.73 oz. jar. #T310 \$ ea.

#### Tarrago Self-Shine Shoe Cream

A self-shine cream containing natural waxes. It's unique formula gives an instant shine without the need for brushing while nourishing the leather. The purpose designed applicator allows easy application. For leather and synthetic leather. 50 ml jar. Available in 12 colors. Amber Brown, Bordeaux, Beige, Medium Brown, Dark Brown, Nevada, Navy, Black, White, Neutral and Dark Burgundy. #A640050 \$ ea.

#### **Tarrago Nano Protector**

Innovative top-class protection based on revolutionary nanotechnology provides an impregnable waterproof barrier. Individual fibers are covered by a high-tech waterproofing agent to better repel water. Materials stay breathable and like new for longer. For all kinds of leather, suede, nubuck and textile materials. 6.53 oz. #ITGS22 \$ ea.

#### **Tarrago Suede Renovator**

Suede Renovator recolors and rejuvenates suede. It revives the original color and nourishes by replacing the natural oils lost from the leather. Protects against water, keeps breath-ability of the shoe and dries fast. Will not rub off. For suede and nubuck. 6.49 oz., aerosol. Available in Black, Brown and Navy. #MA7 \$ ea.

Call for color charts for Tarrago polishes or visit our website: agsfootweargroup.com

#### PowerStep® Bridge™

Adaptable Arch Supporting Insoles with Energize Foam

Introducing PowerStep® bridge™ insoles – where the comfort of an insole and the support of an orthotic meet. These innovative insoles were designed with PowerStep's arch shape and enhanced to allow energize and memory foam comfort to be felt where it's needed most. Bridge insoles are the best insoles for standing all day.

The **PowerStep® bridge™** full length insoles feature a podiatrist designed arch support structure that flexes, supports, and adapts to all arch heights while cradling the heel for improved motion control. Dual-layer cushioning comfort features PowerStep® energize foam™ and memory foam. The PowerStep® energize foam provides a cloud-like feel with channels that assist in even weight distribution for a custom-like fit, offering great shock absorption against impact. This shock absorption occurs from a unique formulation of materials that offers 55% energy return with every step, creating a cushioning step down that then springs back to propel you into your next step.

#### **BETTERFORM PREFABRICATED ORTHOTICS**

**Betterform's** prefabricated line of products grew out of both the practitioner's and patient's requests for an affordable yet effective device as an alternative to a custom orthotic. Their roots in the medical foot care industry dictated a path toward producing a product that is comprised of many of the same materials found in custom orthotics. The majority of their line is heat adjustable and easily modified using simple techniques and tools. Because of the extensive size range, many are an excellent fit straight out of the package.

#### **SOFTFORM**

A true favorite in Betterform's line-upl Comfortable and lightweight, the Softform series is a multi-purpose, cost effective orthotic available in three densities. The series features increased stability, antimicrobial top-covers, multiple density options and general discomfort accommodation.

#### The 10 Seconds 3030 Pressure Relief Insoles with Metatarsal Support

A full-length, cushioned arch support insole, recommended for diabetics, arthritis, and other sensitive feet needs. The soft cushion top cover is made with Plastazote and Orange Abzorb cushioned layers, which provides a customized fit with a wear moldable memory foam feel for foot pain relief and reduced friction for blister prevention. Their additional metatarsal support will help relieve and prevent forefoot pain and discomfort. Custom made airflow channels that are built into the bottom of the insole will help remove warm air, while pulling cool air in. Pressure Relief Insoles are also available without a metatarsal pad that can be used for any foot type to add a comforatble layer of cushion to the shoe.

# Tingley Boots 2023 - 2024

- 70% lighter than other waterproof rubber and PVC boots.
- The seemless construction provides 100% waterproof protection. A flexible upper material stays supple in cold temperatures to make walking easier.
- Cleated outsole for good traction. Spits out debris for great traction outdoors.

Ultra Lightweight and Durable Waterproof Protection

- Tiny air bubbles trapped within the material keep feet warmer in the cold and cooler in the heat.
- Removable polyurethane, contoured insole completes the comfort experience.
- Ideal Applications: agriculture, lawn and garden, foul weather and other general purpose applications.
- Chemical Resistance: fats, certain acids, hydrocarbons, caustics and other chemicals.
