## PEOPLE ARE SAYING...

***"This is one workshop that actually delivers what it promises! I'm going home with many practical tools."***

"I appreciated the realistic basis of experience you brought to the class. The material was well structured, as is the method, and your insight and specific reference to the SAT, ACT, and other tests was very helpful."

"I loved the way you taught so kindly and encouragingly. Although I do not like writing that much, I enjoyed the class."

"The concrete nature of the class was most helpful. I benefited from the steps, the information, the grading criteria, and your coaching on the writing process in general. The actual writing was very helpful."

"I enjoyed this class a LOT! It makes writing essays less intimidating. Thank you so much. Now I truly know how to write an essay."

"Even though the example 25-minute essays were intimidating, I found the practice very beneficial. The practice essays help teach how to pace the writing process and to get done within 25 minutes. Thank you!"

"The two most helpful aspects of the workshop were the opportunity to write the essays and to have a copy of the ***Beat-the-Clock Essay Handbook***, which looks to be a terrific resource."
