### 22/400 Thread Finish

Size/Color : Large / Grey  
Bottle Shape : Round / Square  
Typical Volume : 30ml

#### 1. Glow in the Dark Button Seal

*"Do it in the dark!"*

The seal of the cap is made of a glow in the dark rubber making it easier for you to find in the dark. For best results, charge the seal under bright light for at least five minutes before setting the mood. Also, unlike other hard plastic caps, the softness of the rubber seal provides an extra layer of protection from leakage.

#### 2. Single Handed, Flip Top

*"Easy to open and effortless to close, single handedly"*

In the heat of the moment, there's rarely a hand to spare. Since most bottle caps take two hands to open, the signature feature of the Wyff'r is the flip cap. Flip the top open to easily release your favorite aromas and seal the cap effortlessly to prevent major spills, all with one hand.

#### 3. Extra Large Opening

*"A bigger hole for more pleasure"*

Looking for a bigger hole? The new Wyff'r cap features an opening nearly the same size as the uncapped bottle itself—bigger than any other product on the market. A bigger hole means more aroma and more pleasure, it's that simple.

#### 4. Permanent Rubber Seal

*"Permanent protection built in"*

Grabbing a rubber can be a hassle in the heat of the moment. The new Wyff'r features a rubber seal built into the cap itself, creating a crucial barrier between the bottle and the lid to keep the good stuff in and prevent leakage.

#### 5. Three Sizes Available

*"Size Matters!  
Right sized for a tighter fit"*

We're no size queen, but we all know size matters. It's all about a tight fit! Bottles vary in size and shape, and now Wyff'r does too. With three sizes, including a lid designed with Double Scorpio™ bottles in mind, the Wyff'r is right sized for your pleasure.

#### 6. Cap Keeper

*"Keep it clean!"*

While the Wyff'r is not in use, the cap keeper protects the inside of the Wyff'r from debris and the bright color makes it easy to spot. When the Wyff'r is installed on your bottle, the cap keeper also fits the native cap to keep it clean and easy to find.

**The Wyff'r is sold as a novelty only, not for medical use.  
No therapeutic benefits are claimed of any kind, either expressed or implied.**
