

POPcorn!

Pop crunchy corn for an afternoon snack.

Ingredients:

2 Tbsp oil

½ cup corn kernels

2 Tbsp butter

1 tsp kosher salt

Tools:

measuring spoons

dry measuring cups

large pot with lid

mixing spoon

large bowl

Pop Music

Pop, or “popular” music, has been a unique music genre since the 1960s. It features melodic tunes, repeated choruses, and “hooks” – catchy phrases or melodies that you can't stop singing! Listen to pop music with our playlist below.

Steps:

1

Add oil and one popcorn kernel to large pot. Cover with lid and heat over medium-high heat. Listen!

2

Once the single popcorn kernel pops, the oil is ready! Add popcorn kernels and cover with lid.

3

With help from an adult, carefully hold pot with oven mitts and shake as popcorn pops. When popping slows to one POP per second, turn off heat.

4

Pour popcorn into large bowl. Melt butter in microwave and drizzle over popcorn. Add salt and stir. TASTE & SHARE!
