PAD EURO FOAM XG GLOSS (BLACK)

REFERENCE	PRODUCT DESCRIPTION	UN/BOX	ANCHOR TYPE
133-0015 UN	Pad Euro Foam Xg Gloss (Black) 5 Inches	12	VELCRO
133-0014 UN	Pad Euro Foam Xg Gloss (Black) 6 Inches	12	VELCRO

DESCRIPTION

The **Pad Euro Foam XG Gloss** has a unique design for Holograms removal and provide Ultra Gloss on all paint surfaces. When is use with any of our Symplex® Polishes and Compounds will leave a mirror-like finish with zero swirl marks and almost undetectable hologram. It can be used with standard high speed Rotary machines as well as Long- trow Orbital (+21 mm). European Foam High Density offers a quick and effective elimination of Micro-Scratches. For the effective removal of holograms it is highly recommended the use of Roto-Orbital machines of small orbit 8 -12 mm.

The Euro Foam XG Gloss Pad is compatible with all types of paints and clear coats, Polyester, Polyurethanes, Enamels, Lacquers, etc.

FEATURES

- High Density European Foam.
- Tear and wear resistance.
- Excellent elimination of holograms swirl marks

- Ideal for use in Roto-Orbital machines of low orbit 8 -12 mm.
- Outstanding Distinction of Image (D.O.I.)
- Easy to clean
- High performance and durability
- Very good temperature management thanks to its semi-open cell construction

APPLICATIONS

Due its excellent swirl marks and holograms removal capacity, it can be used to polish any type of surface where cutting pads have previously been used. It is important to note that the Euro Foam XG Gloss Pad should not be used for the removal of color sanding scratches. Its use is highly recommended after the use of our Symplex® Euro Foam XP Cutting Pads and Flex Wool.

INSTRUCTIONS

- The Euro Foam XG Gloss was desing to work after the cutting process, should not be use for remove colorsanding scratches.
- The rotation speed should not exceed 1600 rpm.
- Can be used in Roto-Orbital or High Speed Rotary machines.
- Place the pad on the paint as flat as possible. Excessive tilt will generate more heat and increases the possibility of swirl marks and holograms.

- Can be washed with water, this will increase the performance and durability of the pad.

TIPS: The Pad rotation should be monitored when the edges and curves are polished.

Place the Pad as flat as possible, this will reduce dramatically the Holograms.

PRECAUTIONS

- Keep away from sources of ignition
- Use Safety goggles
- Wear hearing protection
