MANUFACTURING

## **T4 Bike Cleaner**

**Technical  
Data Sheet**

## DESCRIPTION

T4 is a rapid action cleaner which is solvent-free. It's special active ingredients quickly and thoroughly dissolve even stubborn, dried-on dirt and are particularly effective in removing oil and grease residues. The formulation contains active substances, which strengthen the cleaning effects and penetrate dirt, soften it and loosen it from the bike frame.

## SAFETY INSTRUCTIONS

Please refer to Hall's T4 Bike Cleaner - Safety Data Sheet

## USE

For cleaning dirty bikes and mopeds, including their equipment, especially after cross-country rides or in bad weather conditions.

## CLEANING

Spray the bicycle with the cleaner and - depending on how dirty it is - allow to act for three to five minutes. After T4 Bike Cleaner has had sufficient time to act, wash the bicycle with plenty of water using a hose with a fine spray. Do not point the spray directly at the bearings and axles.

## STORAGE STABILITY

Store containers to prevent it from leaking. Store container in a cool, dry place.

## ADVANTAGES OF FORMULATION

- Neither corrosive nor toxic
- Does not contain any solvents or other volatile organic matter (VOC free).
- Very good materials compatibility
- Only very small amounts are required
- Can be diluted with water ( max 1:3)
- Optimum adhesion
