WASH & WAX

TECHNICAL DATA SHEET

WASH & WAX

Description

WASH & WAX is a special formula product for cleaning most categories of motor vehicles that contains a small amount of wax emulsion in addition to cleaning surfactants.

Technical data

Appearance: Blue Liquid
Odor None
Viscosity 1000 mPa.s at 25°C
Shelf Life 12 Month
Relative density 20°C 1,02 kg/l
pH 100% 20°C 7
Flash point 55-100 °C
Solubility in water 20°C complete

Instructions for use

WASH & WAX should be diluted at between 1:25 and 1:100 depending on the condition of the vehicle to be cleaned.

WASH & WAX solutions must not be allowed to dry off in direct sunlight before rinsing as this may cause streaking.

WASH & WAX gives the best finish when the vehicle is towel dried after rinsing. For white goods such as fridges and washing machines, WASH & WAX should be diluted at 1:100 for best results.

Storage stability

Store containers to prevent it from Leaking, store the container in a cool dry place.

Safety

R38: Irritating to skin.
R41: Risk of serious damage to eyes.
S25: Avoid contact with eyes.
S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Advantages Of Formulation

WASH & WAX is very easy to use.

WASH & WAX is designed to leave a light film of wax on painted surfaces to enable an inborn gloss to develop after rinsing when lightly dried with a soft cloth or chamois.

WASH & WAX leaves a glossy surface after rinsing with clean water that is very easy to buff for a deeper shine.

WASH & WAX will promote "sheeting" off of water from the surface which helps to minimise streak
