

ZEROPLUS MASTER KEYED CYLINDERS

The **ZEROplus** range of 6 pin master keyed cylinders is a restricted profile cylinder system. The cylinders can be supplied master keyed (for suites up to 4,000 differs), keyed alike and standard differ. Body shapes available include euro profile, oval profile, rim cylinder and rim mortice. Standard configurations of single cylinder, double cylinder, cylinder and turn, single turn and double turn. The standard turn supplied is elliptical but other shapes are available to order including oval, nylon, and accessible turns. When ordering an offset cylinder and turn, please make it clear which side the turn is to be fitted by adding a "T" after the size, e.g. EK3540T. The standard finish is SCP (satin chrome plated), but polished brass cylinders are available. Standard differ cylinders are supplied 3 keyed each and master keyed cylinders are supplied 2 keyed each. All cylinders have anti-pick protection.
