

ZERO BARRIER RAILS & HOOP BARRIERS

90 DEGREE BARRIER RAILS

Single 90 degree barrier rail with mid-level barrier fabricated from mild steel tubular section, coated black as standard but can be supplied powder coated to match RAL numbers. Manufactured from 42mm diameter tube mild steel, zinc plated. Overall width 800mm, overall height 1150mm with 8mm dia pins at base for letting into concrete, with two 100 x 5mm diameter wall plates drilled with four 10mm holes.

Material: Mild steel zinc plated standard or stainless steel to order.
 Width: 800mm overall.
 Height: 1150mm overall including 250mm for building in.
 Finish: Standard finish Black (/BLK), and Zinc (/ZNC) or Stainless Steel (/SS).
 Can be supplied powder coated to RAL numbers.

| REF | DESCRIPTION |
|----------|--|
| Z170P.0* | 1150mm high with pins to build at base |

Z170P.0 illustrated

Single 90 degree barrier rail with mid-level barrier fabricated from mild steel tubular section, coated black as standard but can be supplied powder coated to match RAL numbers. Manufactured from 42mm diameter tube mild steel, zinc plated with three 100 x 5mm circular plates for wall and ground fixing each drilled with four 10mm holes. Overall width 800mm, overall height 900mm.

Material: Mild steel zinc plated standard or stainless steel to order.
 Width: 800mm overall.
 Height: 900mm overall.
 Finish: Standard finish Black (/BLK), and Zinc (/ZNC) or Stainless Steel (/SS).
 Can be supplied powder coated to RAL numbers.

| REF | DESCRIPTION |
|----------|---|
| Z170F.0* | 900mm high with three circular base plate flanges |

Z170F.0 illustrated

Other widths and heights available on request.

HOOP BARRIERS

Hoop barrier rail fabricated from mild steel tubular section, coated black as standard but can be supplied powder coated to match RAL numbers. Manufactured from 42mm diameter tube mild steel, zinc plated. Overall width 1400mm, overall height 900mm with 8mm dia pins at base for letting into concrete.

Material: Mild steel zinc plated standard or stainless steel to order.
 Width: 1400mm overall.
 Height: 900mm overall including 250mm for building in.
 Finish: Standard finish Black (/BLK), and Zinc (/ZNC) or Stainless Steel (/SS).
 Can be supplied powder coated to RAL numbers.

| REF | DESCRIPTION |
|----------|---------------------------------------|
| Z175P.0* | 900mm high with pins to build at base |

Z175P.0 illustrated

Hoop barrier rail fabricated from mild steel tubular section, coated black as standard but can be supplied powder coated to match RAL numbers. Manufactured from 42mm diameter tube mild steel, zinc plated with two 100 x 5mm circular plates for ground fixing each drilled with four 10mm holes. Overall width 1400mm, overall height 650mm.

Material: Mild steel zinc plated standard or stainless steel to order.
 Width: 1400mm overall.
 Height: 650mm overall.
 Finish: Standard finish Black (/BLK), and Zinc (/ZNC) or Stainless Steel (/SS).
 Can be supplied powder coated to RAL numbers.

| REF | DESCRIPTION |
|----------|---|
| Z175F.0* | 650mm high with two circular base plate flanges |
