

# ZERO "ZAG" ANTI-LIGATURE GASKETING

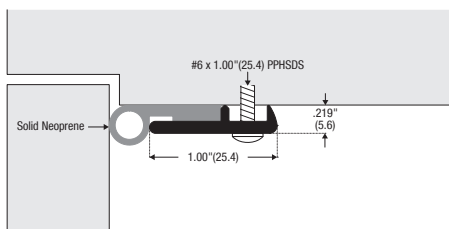

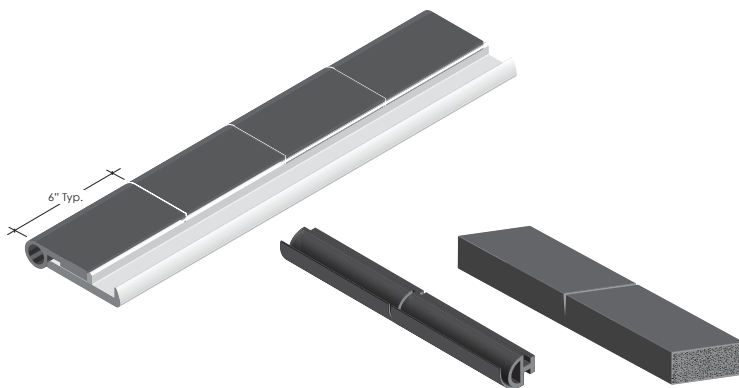

Zero now offers an **anti-ligature** option to prevent gasketing from being used for other than intended purposes, including harming self or others. The rubber in our patented anti-ligature gasketing is scored before insertion into aluminium extrusions, allowing normal function for its specified purpose but designed to break into pieces if removed from the extrusion for any reason.

Applications for anti-ligature gasketing include hospitals, young offender institutions, prisons, psychiatric and mental health units.

Gasketing ordered with this patented feature is installed as usual, with no special handling required.

In addition to the applications shown below, the anti-ligature option can be supplied on request with most other Zero gasketing. To order, add -ZAG after the product code. Example 870AA-ZAG.

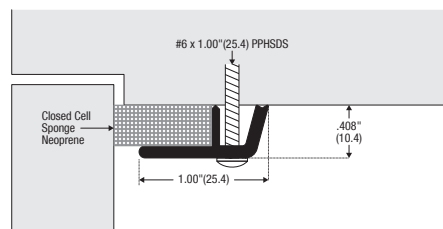

US Patent #7788852.

### 328 VISIBLE FIXING FRAME SEAL

Elongated fixing holes, black ZAG neoprene bulb gasket, scored. Aluminium carrier.

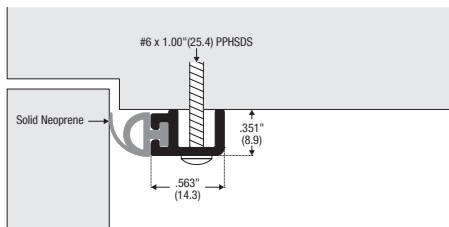

- 328AA-ZAG\*** Clear anodised silver
- 328D-ZAG\*** Dark bronze anodised
- 328G-ZAG\*** Gold anodised

### 318 VISIBLE FIXING FRAME SEAL

Elongated fixing holes, black ZAG closed cell sponge neoprene, scored. Aluminium carrier.

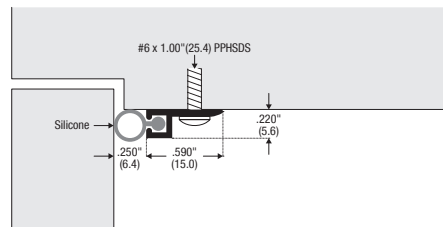

- 318AA-ZAG\*** Clear anodised silver
- 318D-ZAG\*** Dark bronze anodised
- 318G-ZAG\*** Gold anodised

### 485 VISIBLE FIXING FRAME SEAL

Elongated fixing holes, black ZAG neoprene flipper gasket, scored. Aluminium carrier.

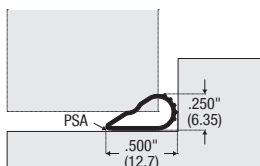

- 485A-ZAG\*** Mill aluminium silver
- 485D-ZAG\*** Dark bronze anodised
- 485G-ZAG\*** Gold anodised

### 8303 VISIBLE FIXING FRAME SEAL

Elongated fixing holes, black ZAG neoprene bulb gasket, scored. Aluminium carrier.

- 8303AA-ZAG\*** Clear anodised silver

### 188 TEARDROP SEAL
