

## **RIVET GUN - AIR/PNEUMATIC**

## RIVET GUN MODEL RT-10171 & RT-10181

High quality European rivet guns suitable for medium volume workshops.

These are powerful air/hydraulic riveters, suitable for high to medium volume installation of both Huck and standard rivets. These quality European rivet guns make work a little easier through: quick cycle time, rivet holding capacity and mandrel collection - allowing for one hand operation. RT-10171 image and drawing shown.
