PAIRING INSTRUCTIONS

1. Take the Earbuds out of the Case, they will Automatically Turn On.
2. Earbuds will turn off automatically when they are put back to the Case. Alternatively Press and hold the MFB of both left and right simultaneously to turn off the Earbuds.
3. Open your Smart devices, and turn on the Bluetooth. Your device will perform a search for the local bluetooth device and shows " M3 ". Just click on this and the earbuds will be paired with your device. (This is only for the first time , and thereafter the Earbuds will get connected to the device once they are taken out of the Case).

FUNCTIONS & ACTIONS

BLUETOOTH CALLING

Caller ID	Number will be read aloud
Answer Call	Press the multifunction button while receiving a call
End Call	Press the multifunction button once during a call
Reject/Ignore Call	Press and hold the multifunction button for 2 seconds

MUSIC & AUDIO

Play/Pause	Single click the MF buttons to play/pause
Next Song	Double Tap on Right Earbud
Previous Song	Double Tap on Left Earbud
Volume +	Triple Tap on Right Earbud
Volume -	Triple Tap on Left Earbud

GENERAL

Activate Siri/Voice Asst.	Press and hold the multifunction button for 2 seconds
Turn On/Off	Press and hold MF buttons for 3 seconds/ 5seconds

MONO MODE:

*You may wish to only use one earbud (Single Mode) instead of using both earbuds together (Dual Mode). When this is the case, simply turn on only the earbud you wish to use and follow the same steps while keeping the other earbud turned off. You will have the same general functionality. Once you have successfully paired your Earbuds to a Bluetooth-enabled device, that device will recognize and remember your Earbuds for automatic re-pairing. This means that the next time you wish to use your Earbuds with the same smart device, pairing will happen automatically and without the need to revisit your device's Bluetooth display screen.

CHARGING

Insert the EARBUDS into their corresponding charging CHAMBER in the case, respectively marked L and R. Insert the included Type-C USB charging cable into the side of the charging case and connect to a power source. When they have finished charging, earbud LEDs will turn off to indicate they are fully charged.
