Most of the finishes were custom; the existent flooring is complemented by a custom jute rug, adding a natural warmth to the space. The scalloped wallpaper used throughout is custom designed and branded by The Wing but printed by [Flat Vernacular](#). Fringe detail on the custom-designed lighting fixtures creates warm-toned, softly diffused light. Next to the changing table, a custom Carrara marble sink is fitted with matte black [Moen](#) fixtures and sits atop a cabinet in one of The Wing's signature tints of mint green. Plants from [Sachi Rose](#) floral design add a secondary touch of nature to the space and complement the other tones of green used throughout.
