

■ MOTAWI TILEWORKS | Glaze Range Sample Approval Form

Motawi Tileworks glazes vary from muted stony matte to satin matte to brilliantly glossy. Many glazes can vary significantly in shade, hue, and surface quality. This natural variation is intrinsic to the beauty of Motawi Tileworks glazes.

Prior to placing your order we highly recommend you order a glaze range sample of all the glazes you are considering. The glaze range sample shows the full range that is possible to see within each glaze. Each tile order will fall somewhere within that glaze range, and large orders may exhibit the full range shown. It is important to be comfortable with any variation within the glaze range. You can also view the glaze range on our website at motawi.com/collections/glazes-for-installation-tile. Note that due to variances among color monitors, the colors on your computer monitor may deviate from the actual glaze color. Ordering a physical glaze sample is always the best way to judge color accurately.

Returns are not accepted unless tile is defective or damaged in shipping, and cancellations are not accepted on made-to-order tile.

If you have any questions on the information above please contact Motawi Tileworks by calling customer service at (734) 213-0017 to talk with one of our installation designers.

■ SAMPLE APPROVAL

I have read the above information on the variations intrinsic to Motawi Tileworks glazes and understand that once I approve the range sample provided, I may not return or cancel my order unless the tile is defective or damaged in shipping.

I have seen the enclosed range sample for the glazes in my project and accept the variation shown. I understand that all or some of the pieces I have ordered in this glaze will look similar to any or all of the tiles making up the range sample.
