

CANON EARNS 2020 ENERGY STAR® PARTNER OF THE YEAR — SUSTAINED EXCELLENCE AWARD

Canon U.S.A received the 2020 ENERGY STAR® Partner of the Year – Sustained Excellence Award for continued leadership and significant partnerships with ENERGY STAR.

The highest honor among ENERGY STAR Awards is the ENERGY STAR Partner of the Year — Sustained Excellence Award. EPA presents the Sustained Excellence Award to partners that have already received ENERGY STAR Partner of the Year recognition for a minimum of two consecutive years and have exceeded the criteria needed to qualify for recognition. This marks the third consecutive year Canon has received the Sustained Excellence Award (2018, 2019 and 2020). This is also the fifth consecutive year Canon has been recognized as a Partner of the Year.

About ENERGY STAR

ENERGY STAR® is the government-backed symbol for energy efficiency, providing simple, credible, and unbiased information that consumers and businesses rely on to make well-informed decisions.

Thousands of industrial, commercial, utility, state, and local organizations — including more than 40 percent of the Fortune 500 — rely on their partnership with the U.S. Environmental Protection Agency (EPA) to deliver cost-saving energy efficiency solutions. Since 1992, ENERGY STAR and its partners have helped save American families and businesses nearly four trillion kilowatt-hours of electricity with associated reductions of over three billion metric tons of greenhouse gases.

About ENERGY STAR certified products

The ENERGY STAR symbol makes it easy for consumers and businesses to purchase products that could save costs while helping to protect the environment. EPA ensures that each product that earns the label is independently certified to deliver the quality, performance, and savings that consumers have come to expect.
