

How to get a really good fit.

Measure yourself with a tape measure. Keep it level and close but not too tight. (Or have a friend do it. Serve sangria, as a bribe.)

You can also talk things over with our customer service representative. Explain your true preference: close fit, loose fit or something in between. We are here to help you.

NECK. Measure neck. (Add a little for Adam's apple.)

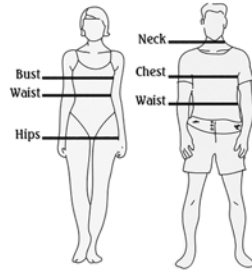

CHEST/BUST. Measure around fullest part, but with a tape under your arms. You'll need a friend to do this for you. (More sangria.)

ARM/SLEEVE LENGTH. Arm must be bent to do this right. Then, measure from center of back of neck, over the shoulder, down the arm, past the elbow (bent) all the way to wrist. (Friend needed for this too.)

WAIST. Measure around your natural waist or, if you prefer, a little lower, where you may actually wear your pants.

SEAT/HIP. Standing, with feet together, measure around the fullest part of the hips. Don't cheat.

INSEAM. Use a well fitting, similarly styled pair of pants. Lay them flat, with seam on seam. Measure from crotch to bottom of hem.

Call for specific item measurements.
