WARNINGS

TRUST US, YOU WANT TO READ THESE

THIS IS PROBABLY YOUR FIRST TIME SO...

Some may experience sensitivity or other adverse skin changes after the first few days using your brush. Do not worry, this is completely normal and is your skin's way of adjusting to a new and deeper method of cleansing. If these changes are more severe than expected, reduce usage and contact us on help@magnitone.co.uk or seek advice from a skincare professional.

DON'T USE IF:

- You are under the age of 14
- Have scarred, broken, inflamed or infected skin
- Have eczema, dermatitis or any other skin disorders
- Have extreme sunburn
- Are taking medication that can cause skin sensitivity (e.g Retin-A, Accutane, Avage, Tazorac, Differin)
- Close supervision is necessary when this product is used by, on, or near children or physically or mentally challenged persons
- Do not use around the delicate eye area
- Strictly for external use only
- You have a pacemaker

TECHNICAL DON'TS!

- Do not charge near flowing water
- Do not reach for a charging cable that has fallen into water. Turn off power at the mains before retrieving the unit or it may result in electric shock and/or death
- Do not attempt to disassemble or repair any part of the product
- Do not misuse the product - used only for its intended purpose
- Never operate the brush if it has been damaged
- This product is approved to the requirements of European EMC legislation. Do NOT use near to shortwave or microwave equipment. Other electrical equipment in the vicinity may be affected by the usage of this product

THE OPERATION MANUAL

Get turned on and experience these good vibrations as our Vibra-Sonic™ technology empties out your pores whilst strengthening and conditioning your skin.

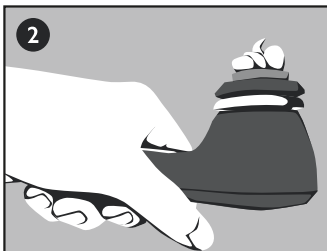

GETTING STARTED

Your Magnitone brush comes part charged so just get going.

Insert the brush head. Turn the lower ring (grey) clockwise until you feel it lock into place. To unlock, just turn back the other way.

Apply your regular face wash / shower gel on to the brush or directly onto your skin if you prefer.

Wet the brush and turn it on (we like doing it in the shower).

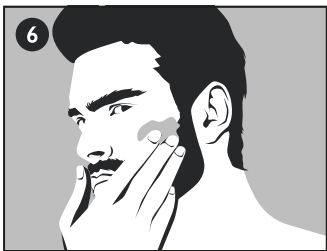

Move the brush over your skin in small, slow circles.

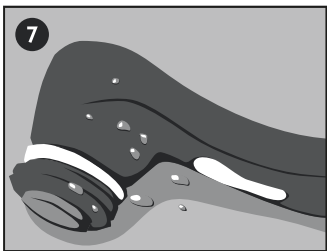

When you get to your facial hair, hit the button again to switch to Turbo mode to detangle and cleanse under it.

After 30 seconds, the brush switches off automatically.

Apply your usual moisturisers or gels.

Don't forget to dry your brush head, ideally leave it upright or on it's side so water can drip off.

Stroke your face, or get someone else to. Go on...

FAQS

Q Does *The Clean Sweep* work on the skin under my beard?

A Yes! Our *HydroPRO* brush head has been designed to get into your beard and get to your skin!

Q I've got sensitive skin. How often should I use my brush?

A We recommend every day. But all skin is different, so if you need a sensitive brush head, log onto www.magnitone.co.uk to see our selection of heads.

Q How do I charge my Magnitone brush?

A The magnetic 'clink' charger sticks to the brush handle and will charge wirelessly via the USB lead included.

Q How often should I replace my brush head?

A Every 3 months or when it looks or feels worn.

Q Can I use *The Clean Sweep* in the shower or bath?

A Yes! It's 100% Waterproof.

Q What type of cleanser or face wash should I use?

A Any cleanser, the brush is designed to fit right in to your current skincare routine. Although, we recommend that it's non-abrasive.

Q How should I clean my brush head?

A Don't use chemicals, just soapy water, turn it on and give it a good rinse in your hands.

Q Where can I buy replacement brush heads?

A Log onto Magnitone.co.uk and look at the full range of facial brush heads. And don't forget, you'll get £5 off when you register your product warranty.

After more information or fancy a chat? Get in touch!

We're sure you'll love using your Vibra-Sonic™ Daily Cleansing Brush but if you still need help or any additional product information, please don't hesitate to get in touch with the Magnitone team.
