

## Lemo User Manual

### Notice for Use

Thank you for choosing Eleaf products! Please read this manual carefully before use so as to use correctly. If you require additional information or have questions about the product or its use, please consult your local agents, or visit our website at [www.eleafworld.com](http://www.eleafworld.com).

### Product Introduction

Lemo series atomizers includes Lemo atomizer(longer) and Lemo Drop atomizer(shorter). They feature steel material and glass atomizer tube to ensure the product's durability and aesthetics. The heating coil can be wrapped around the absorbent cotton by yourself. Also, the air inflow can be adjusted to a desired condition as you please.

### Parameter

#### Lemo

Length: 85.56mm

Diameter: 23mm

Liquid Capacity: 5ml

#### Lemo Drop

Length: 74.16mm

Diameter: 23mm

Liquid Capacity: 2.7ml

### Components

- 1\* Mouthpiece
- 1\* Top Cap
- 1\* Glass Tube
- 1\* Atomizer Cover
- 1\* Atomizer Tube
- 1\* Atomizer Base
- 1\* Connecting Base
- 1\* Heating Coil
- 1\* Absorbent Cotton
- 1\* Silicone Cover

### How to add liquid

- Screw the connecting base off atomizer base.
- Pull the silicone cover out off the bottom of atomizer base
- Slowly refill the liquids into the small hole.

- Note:** a) Drip a few of e-juice in the absorbent cotton to make that moist before filling in the e-juice.  
 b) We provide a small screw as spare parts. You can screw it on the injection hole instead of the silicone cover. Use the silicone spares for more convenient e-juice filling.

### How to Use

**Adjustment of air inflow:** By rotating the regulation ring clockwise or counterclockwise to adjust the air inlet. You can adjust the regulation ring clockwise to get smaller air inflow, and counterclockwise for larger air inflow.

**Adjustment of thread connector:** The adjustable thread connector makes Lemo better matched with your battery. Just use the tool to rotate the word cross as needed.

**How to DIY:** Please wrap the heating coil around absorbent cotton according to your demand and then fit it on the atomizer base.

### Precautions

- Only have your device repaired by Eleaf. Do not attempt to repair the unit by yourself as damage or personal injury may occur.
- Do not leave the device in high temperatures or damp conditions, otherwise it may be damaged. The appropriate operation temperature is within 0°C to 45°C while charging and -10°C to 60°C while using.
- Do not attempt to combine the device with parts from other brands of e-cigarettes. If it is damaged in this way, our company will not take on responsibility and your warranty will be void.

### Warranty

Please consult your Eleaf product warranty card. We are not responsible for any damages caused by human error. Our warranty is not available for products purchased from third-party vendors.
