

ecowashing up-liquid

Purpose:

An effective low foaming washing-up liquid totally formulated with the environment in mind using naturally derived plant based ingredients and sustainable surfactants.

How it works:

Natural surfactants play a crucial role in attacking and removing grease and food residues. Once in water, the ecowashing-up surfactant spreads and breaks down greases and food residues. Leaving a clean, sparkling streak free surface.

Sizing:

Note: We do not sell full 500ml bottles, we encourage refilling from larger containers.

Core benefits:

- Concentrate product 1:20, reducing the cost and saving plastic
 - A multi functional product, which cleans, refreshes, eliminates waste build up and deodorises
 - Effective on hard and soft surfaces
 - Neutral fragrance
-

Environmental:

- Chemical free
 - pH neutral
 - Full biodegradable and environmentally safe formula
 - No animal testing
 - VOC free
 - Post consumer plastic, reuse, recycle and reduce CO2e
 - 0% manufacturing waste
-

Best practices:

Use like any other washing-up liquid. Keep the 5 litre under the sink and refill the small one and keep by the sink. Avoid buying lot's of small bottles to reduce plastic waste.

Instructions:

Just a few drops is enough for a full sink of dishes.
