

## ***Clio by ClearView Audio Wins Edison Gold Award***

*Clio is selected for top honor in Household Environment category*

**Wellesley, Mass. – April 15, 2015** – ClearView™ Audio, the creators of the award winning nearly “invisible” Bluetooth® speaker, Clio™, announce today recognition as a 2015 Edison Gold Award winner in the Household Environment category. The Edison Awards™ selected the Bostonu based entrepreneurial company from a field of finalists that included Lumio by Lumio LLC and LG Art Cool™ Gallery by LG Electronics USA. The internationally renowned Edison Awards are inspired by Thomas Edison’s persistence and inventiveness, and recognize innovation, creativity and ingenuity in the global economy.

“It’s exciting to see companies like ClearView Audio continuing Thomas Edison’s legacy of challenging conventional thinking,” said Frank Bonafilia, Edison Awards’ executive director. “Edison Awards recognizes the game-changing products and services, and the teams that brought them to consumers.” Award winners were selected on April 23, 2015 at the Edison Awards Annual Gala, held in the historic Ballroom of The Capitale in New York City.

The Edison Award finalists were judged by more than 3,000 senior business executives and academics from across the nation. The voting panel included representatives from Chief Marketing Officer Council (CMO), Design Management Institute (DMI), American Productivity & Quality Center (APQC), American Society of Mechanical Engineers (ASME), Georgia State Marketing Roundtable (GSU), Product Development and Management Association (PDMA), Assoc. of Technology Mgmt. & Applied Engineering (ATMAE).

“We’re incredibly thrilled and humbled to have been selected for the Edison Gold Award in the Household Environment category,” says ClearView Audio’s CEO Stefan Bokamper. “Past winners include marketing professionals, scientists, designers, engineers and academics, and we are honored to join this illustrious group.”

The award win comes at a significant time for ClearView Audio. The company debuted Clio at retail in Fall 2014 at Restoration Hardware and has expanded distribution to a growing number of audio/video specialists and online retailers across the U.S. The company also recently announced that they were selected as a Red Dot Product Design award winner. The Red Dot and Edison Awards join the company’s previous accolades from CES 2014 including, “Best in Show: Audio Category” from *Engadget* and the “Editor’s Choice Award” from *Reviewed.com/USA Today*.
