

A new twist on a classic strain.

Valencia is a perfectly balanced sativa-dominant hybrid strain.

A Sour Tangie, this pheno is sweeter and more citrusy than others in this lineage, and it was curated for its bag appeal, flavour, and energizing sativa effects.

The buds are dense, loaded with trichomes, and have bright orange hairs, dark purples, and lime green colors (and our pre-rolls are always made from whole flowers only). The aroma and taste are characteristically citrus and reminiscent of a fresh-squeezed glass of Valencia orange juice.

What's up?

We're Artiznl! A small, dedicated team of cannabis growers with a passion for terps and a singular focus – grow loud, industry-leading cultivars. We have deep roots in both the legacy market and the legal industry but decided to leave corporate cannabis to return to cultivating the way we believe is best – starting with unique genetics, growing in small batches to dial in winning genomes, and patiently drying, cold-curing and hand-trimming each flower to ensure the best possible quality in every single harvest.

We're proud to bring Valencia to you as our first product – we hope you enjoy it, and the other strains we'll bring to you in the coming months.

Get stoked!
