

The M-7X is the upgraded version of M-7 **R****G****B****A** LED fog machine. With the improved heater, it can deliver more powerful, higher volume, and much quicker fog bursts.

With **R****G****B****A** LEDs on board, M-7X can form different color effects. It is even blighter and better with fog effects for stage purpose.

New structure design for multiple angle rigging and the fluid tank compartment make it much easier to fit the needs on stage.

Smart auto sensing adjusts the power frequency and voltage automatically according to the power input source.

FEATURES

1. Neutrik TRUE 1 Connector
2. **R****G****B****A** LEDs on board
3. Optional Wireless DMX available
4. New structure design for multiple angle rigging
5. Auto sensing frequency
6. Fluid tank compartment for ease of transportation
7. Huge output volume with high pigments LED colors
8. Great fit for Stage purpose
9. Generate fog at any orientation
