

# M-9 Fog Machine

## The bursting into the sky shockingly effect!

M-9 equipped with 27 x 8W of 5 in 1 high efficiency LED at jet air column to create RGBAW colors covering bigger space.

Adopting two pipes in one high voltage sheath heater to triple its output volume compared to M-7.

Capable to quickly shout out fog straight into 10 M high sky within a short period of time.

Requires 10 channels, provide more color diversity changes.

## Features

1. Quick Release Omega Clamp
2. 5 in one high illuminated LED
3. Clean and clear output, no residue fogging
4. Dual pipes in one high voltage swath heater
5. Sleek and solid design
6. 6-liter fluid tank, longer usage time.
7. Can be positioned vertically, horizontally in 3 directions
8. Device to quickly collecting output fog

## Preliminary Specification

<b>Input Voltage</b>	U.S. Version: AC100-120 50/60Hz 15.2A EU Version: AC220-240 50/60Hz 7.6A
<b>Rated Power</b>	1820W
<b>Lighting Source</b>	27 x 8W RGBAW 5-in1 LED
<b>Warm-up Time</b>	14 Minutes (approx.)
<b>Fluid Consumption</b>	400 ml/min
<b>Tank Capacity</b>	6.0 Liters
<b>Compatible Fluid</b>	Antari FLC Super Light Fog Fluid
<b>Ambien Temp. Range</b>	0°C - 40°C
<b>Control</b>	DMX 512, Timer, Manual, Wireless, Master/Slave, Wireless DMX (Optional)
<b>DMX Channels</b>	10 / 15 / 25 Channels
<b>Connection</b>	Neutrik TRUE 1 Connector (Power) XLR 3-Pin and XLR 5-pin (DMX)
<b>Optional Accessories</b>	WTR-90
<b>Dimension (mm)</b>	L 393 W 320 H 419.3
<b>Weight</b>	24.0 Kg
