Z-380 Fazer

After a hectic day of work, you just want to get together with friends for a drink.
Imagining the romantic feel created by gentle lighting shoot through the fog that relax you in total···

For the past 30 years, Antari fog machines have presented in numberless international large scale events, and satisfied most of the high standard professional user's demands in machine stability and effects.

Now, the new challenge to meet the new trend of fog machine for business purpose, Antari has developed a new Z-380 model. The design of this new fog machine bases on previous models for professional users, but practically in a broader application for general business purposes.

Z-380 features 1,500W capacity, big output yet smart, solid and compact design in appearance, easy operation, handy and user friendly, clean fog, fast proliferation, not interrupting other present equipment, and comes with a convenient hanger.

Z-380 has stable continuous fog output system, excellent results; it is the best choice for different types of business sites to create a lay back and romantic feel.

Features
