Example Question

3

You have completed the monthly financials for a client and the gross margin amount looks low.

Which of these options would NOT be a possible cause?

A

A marketing initiative means you are selling a high volume product below cost

B

There is high demand for a particular product due to a popular social media campaign. The margin on these products is the same as target margin

C

One customer returned a large order for full credit as they could no longer afford to pay for the goods

D

Product recall required on one product

E

Month end INVENTORY COUNT stocktake missed an entire section of inventory

Answer

3

There is high demand for a particular product due to a popular social media campaign. The margin on these products is the same as target margin

This answer indicates higher than expected sales, with each sale producing a normal gross margin. This won't explain a gross margin fall.

A

A marketing initiative means you are selling a high volume product below cost

B

There is high demand for a particular product due to a popular social media campaign. The margin on these products is the same as target margin

C

One customer returned a large order for full credit as they could no longer afford to pay for the goods

D

Product recall required on one product

E

Month end INVENTORY COUNT stocktake missed an entire section of inventory
