HIGHLIGHTS	The full season filled with the best of our sustainable harvest. Our Premium Sitka Seafood Share delivers the largest quantities of our most prized seafood such as king salmon, sablefish (black cod) and halibut. It is also the only share expected to include spot shrimp (prawns), Copper River sockeye, and sashimi-grade albacore tuna. These features make it our most popular share and our best value.	About three-quarters of our season, offering a mix of high-value, premium species such as king salmon, halibut, and sablefish (black cod) interspersed with more affordable and abundant species such as keta salmon, rockfish, and Bristol Bay sockeye. Those who enroll in the Sitka Seafood Share can expect a wide array of seafood species, including Dungeness crab.	Salmon lover's paradise—the Sitka Salmon Share is our premium wild-salmon-only experience and the original share offered by our CSF. Just like some of our very first deliveries, the “share that started it all” provides wild Alaskan coho, king, and keta salmon from local Sitka waters, with the addition of Bristol Bay sockeye and coho salmon caught by our partners in Southeast and Southwest Alaska.	A seasonal introduction that showcases Alaska's more abundant and affordable species, sustainably harvested in spring and summer. Our Taste of Summer Share provides the opportunity to “test the waters” at Sitka Salmon Shares, with multiple species of wild salmon and whitefish, including keta, coho, and sockeye salmon, alongside Kodiak rockfish and Pacific cod.

With Sitka Salmon Shares, you are joining a Community Supported Fishery (CSF), where you purchase a “share” of the harvest caught by our collective of small-boat fishermen. Because we let nature and our fishermen guide us through our seasons, we aren't able to guarantee precise poundage and species mix. What we can promise is that you'll receive 4.5-5 pounds monthly of seasonally-appropriate, sustainably-harvested seafood. Furthermore, we promise that you'll be totally happy with what you get, or we'll give you your money back. You can also cancel at any time. **This is our We're Really Fishing Promise.**
