

ELGIN[®]

RUCKUS[™] DISCORD
Quick Start Guide

The NRR for the Ruckus™ Discord calculated from laboratory-based attenuation data is **25 decibels**. Improper fitting of this device will reduce its effectiveness in attenuating noise. Consult the instructions in this guide for proper fit.

Example: If the noise level of your environment measures 100 dB(A), the level of noise entering the ear upon using Elgin® earphones is approximately equal to 75 dB(A).

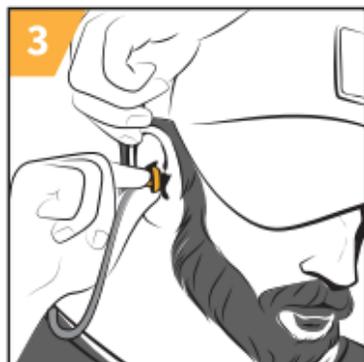

If the Ruckus™ Discord is connected to a device with a high audio output, it is the user's responsibility to set the device's audio output to a safe level.

Fitting Instructions

Place the Ruckus™ Discord around the back of your neck with the earbuds hanging in front.

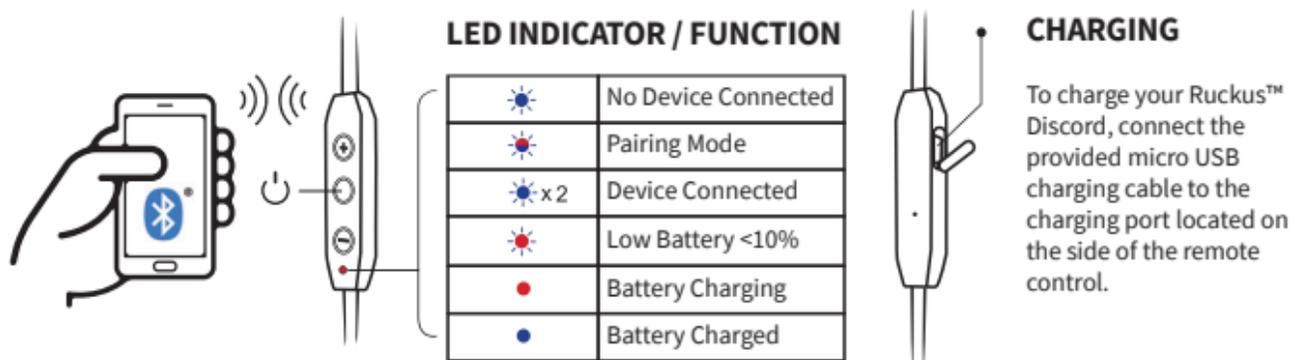

1. Grasp the right earbud (remote control side) with your right hand.
2. Reach over your head with your left hand and pull your right ear gently up and slightly back to help open up the ear canal.
3. With your right hand, insert the right earbud into the ear canal as deeply as possible to form a tight, comfortable seal.

Repeat for the opposite side.

Bluetooth® Pairing and Charging

1. Activate Bluetooth on your phone or device and ensure it is actively scanning for available Bluetooth devices.
2. Hold the power button on the Ruckus™ Discord remote control for 3 seconds until the LED light flashes red and blue. The Ruckus™ Discord is now in pairing mode.
3. On your phone or device, search the list of available Bluetooth devices and select **ELGIN RUCKUS**. Once the pairing process is complete, you should hear a voice prompt on the Ruckus™ Discord say, "Power on. Connected."

Using the Remote Control

Press **+** to raise the volume

Hold **+** to skip to next audio file

Hold **⏻** for 3 seconds to turn earbuds on or off

Hold **⏻** for 2 seconds to activate your device's voice assistant

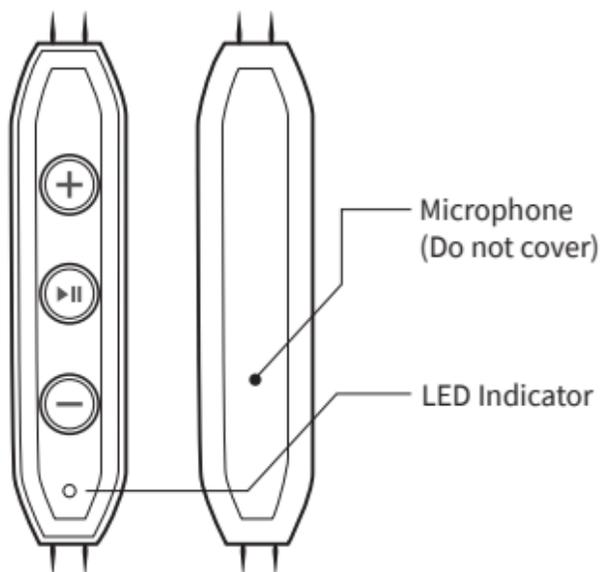

Press **⏻** to Play/Pause

Press **⏻** to answer and end calls

Press **⏻** twice to redial the last call

Press **-** to decrease the volume

Hold **-** skip back to previous audio file

Features of the remote control are regulated by the connected and transmitting device.

WARNING

Do NOT use in environments where users must be fully aware of their surroundings for personal or workplace safety reasons.

Do NOT use or charge this device in an explosive environment.

Misuse or failure to wear hearing protection at all times that you are exposed to noise may result in hearing loss or injury.

Ensure hearing protection is properly fitted.

Additional Notes

We do not guarantee compatibility with all functions of every Bluetooth® enabled device. Check your device's user manual for compatibility and functionality.
