Caladium Dot's Delight

www.marlborobulb.com

Presenting Marlboro Spring Bulb Collection

Dear Valued Customer,

Welcome to our exciting new spring planting catalog.

Our front cover features the striking Canna Australia with its beautiful bronze foliage and the brand new Caladium Dot's Delight named after a special friend.

Make sure you check out all the new varieties offered this season and as usual please try to order as soon as possible to avoid disappointment. Some varieties, especially Bearded Iris, really do sell out fast.

Call us at 1-800-999-0567 if there is something different you need or for a quote on larger quantities.

We have a larger selection on our web site www.marlbobulb.com

Whether you are a garden center, seed store, landscaper, gardener, cut flower grower or nursery you will find the best personal service in the industry!

Lee (our new office manager), Patricia and I are looking forward to your business.

Sincerely,
Jack de Vroomen

How to order

Our business hours are: Monday to Friday from 9 am until 3 pm.

Pick up is by appointment only and ordering in advance may be required.

- Order by phone tollfree: 1 (800) 999-0567
- Order by fax: (864) 229-5719
- Order by email: info@marlbobulb.com

Deer Proof

Deer are a nuisance to many gardeners. Although there are no deer proof plants, there are plants that offer Deer Resistance. Planting bulbs that deer do not like to eat is a solution to deer browsing. Look for this symbol throughout our catalog for plants that are proven to be deer resistant.

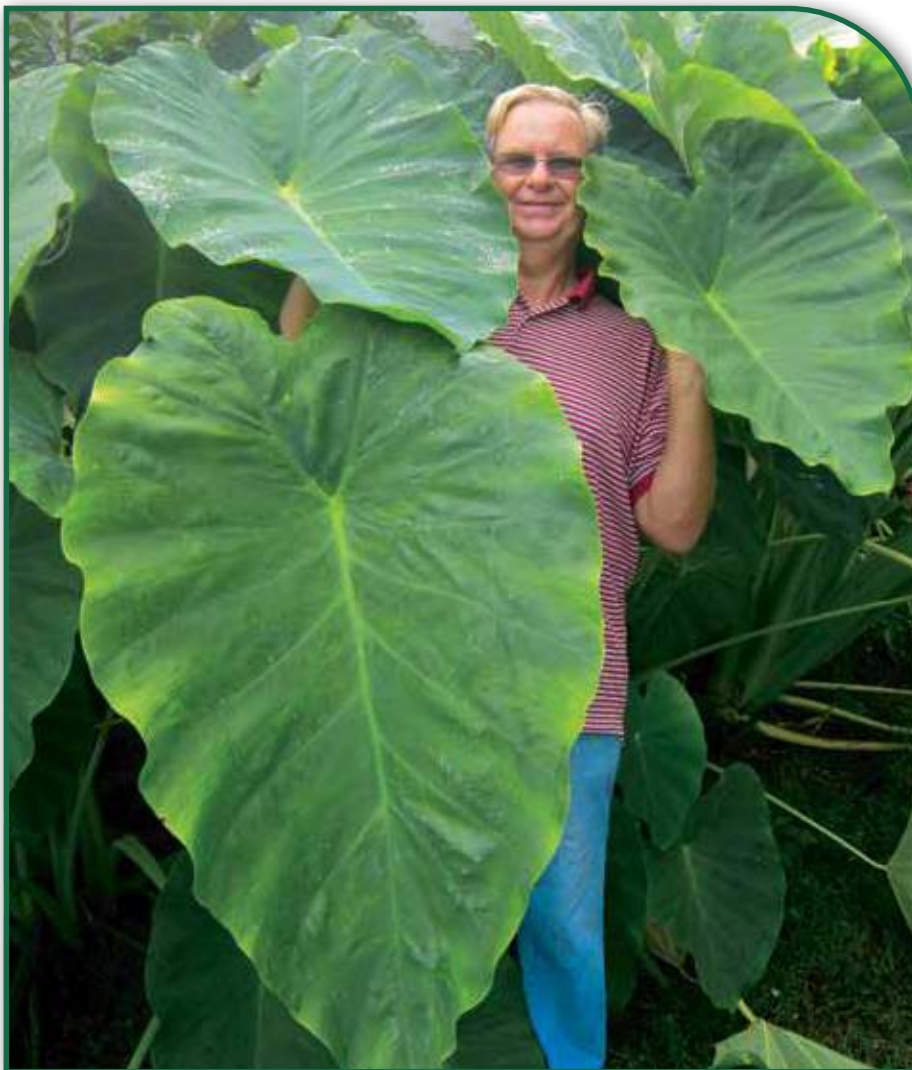

Bobbex

Critter and Deer repellent - does not wash off.
"This stuff works in my garden, I spray just 4 - 6 times a year."

Table of contents:

Bulbs only - no plants.

**Elephant Ears
(Alocasia and Colocasia)**

Keep well watered and mulch well. Those listed are generally hardy in zones 7-10 but can survive in sheltered spots elsewhere. They can be stored cut back in a frost free location.

Jack's Giant Elephant Ear (Colocasia)

Green Heirloom Elephant Ear (Colocasia esculenta)

Upright Elephant Ear (Alocasia odora)

Ruffled Upright Elephant Ear (Alocasia portodora)

 Credit Card

Credit Card details:

Substitutes allowed: Yes No

Expiry date:

Terms of sale

Standard packing:

To facilitate rapid shipping, we will ship only the quantity listed as the standard box or crate. Included with each item ordered is a full color picture except the bareroot perennials which will ship in a bag with full color tags. All orders will be processed in order of receipt.

Shipping begins the middle of February and only when weather permits depending on the cold tolerance of the product. Some items are in limited supply so order early and specify your desired shipping date.

Shipping rates:

Orders will be shipped either FedEx ground, UPS or motor freight, F.O.B. Greenwood, South Carolina. Sorry, no COD's accepted. 15% shipping will be added with a minimum shipping charge of \$15.00.

Payment:

First time customers and customers without prior credit approval, please include full payment with order. Credit applications are available for any customer requiring a credit line of over \$500.00 per season. We reserve the right to decline credit for any reason. VISA, MasterCard, American Express and Discover are gladly accepted.

Billing:

Packing lists are included with each shipment and invoices are mailed the same day the orders are shipped. Statements are mailed on the 1st of the month; payments not received by this date will appear on the next month's statement. A 1½ % monthly interest charge may be added 30 days from invoice date. The minimum finance charge will be \$.50. Full payment is expected within 30 days. All accounts will be held open for 90 days, after which time we reserve the right to take additional measures in the collection of delinquent accounts. Customers will be charged for these recovery services. Returned checks will be redeposited once and your account will be charged a \$25.00 fee. Prices are subject to change without notice due to market fluctuations. This listing replaces all previous price lists.

Limitations and liability:

Buyer's sole and exclusive remedies for any loss or damages shall be, at the seller's option, REFUND OF THE PURCHASE PRICE OF THE GOODS SOLD OR REPLACEMENT IN KIND AND QUANTITY. In no event shall Marlboro Bulb Company be liable for any other incidental or consequential damages (including loss of profits) of any kind, whether based on contract, tort or any other legal theory.

Damages and shortages:

Due to the highly perishable nature of bulbs and plants, all items must be unpacked and inspected immediately. All shortages or damages must be reported to us within 2 days of receipt. Please do not dispose of the goods. You may be required to return them to our warehouse before credit can be issued; however, do not return to us without prior approval. We offer no warranty against weather damage, poor soil conditions or improper handling and storage. Please treat all bulbs and plants as perishable items and follow recommended planting instructions for your area.

Business hours:

Monday through Friday 9:00am until 3:00 pm EST.
 Pickup by appointment only.
 Ordering in advance may be required.

How to order:

- Order by phone toll free: 1-800-999-0567
- Order by fax: 864-229-5719
- Order by e-mail: info@marlborobulb.com

South Carolina Wholesale Tax ID number required of all South Carolina businesses.

PLACEMENT OF AN ORDER WITH MARLBORO BULB COMPANY IS ACKNOWLEDGEMENT AND ACCEPTANCE OF THESE PROVISIONS.

NOTES

Growing Tips

Acidanthera

Set bulbs out in spring after last frost. Choose a site with full sun and plant bulbs 3 to 4 inches deep and 4 to 5 inches apart. Dig and store in winter.

Amaryllis

Garden (hardy) Amaryllis love a sunny spot. Plant with half an inch of soil covering them. Mulch lightly in winter. Do not over water or you will get more leaves than blooms. Indoor Amaryllis from Christmas blooming can be planted out the same way after last frost date in southern states.

Anemone

Plant in fall or spring in well-drained soil, 1 to 2 inches deep and 2 to 4 inches apart. Soak corms overnight and plant sideways as top is not easy to see. They make great pot plants.

Begonia

Can be started indoors in late winter. Set tubers sideways or concave side up and cover with half inch of growing medium. Set out in shady spot after last frost date. Plant about 12 inches apart.

Brodiaea (Triteleia)

A must try for south! Plant 4 inches apart and 5 inches deep. Keep moist, not wet, when growing but then tolerates summer drought. Mulch in winter.

Caladium

Set tubers outside when temperatures are at least 70 degrees. Night temps need to be over 50degrees. Space 6 inches apart and cover with 1 inch of soil. Further north plant in trays and grow in temps of 70 -80 degrees then transfer to pots or ground when warmer. Water well if hot and dry. Remove any flowers to allow more leaves. Remove leaves and lift and dry to store over winter in temps. around 65 degrees. They can be grown indoors in pots also.

Calla

Calla Lilies may be grown in pots or outside. Keep well watered. Some grow well as water plants. In north remove growth and dry out, replanting in pots to bring indoors for winter to rebloom or store.

Canna

Plant 18 inches apart and 3 to 4 inches deep in spring or summer. Water well. In north after tops are cut off by frost, dig and store frost free.

Dahlia

Plant after danger of frost. Set tubers 1 to 3 feet apart, depending on variety. They like a sunny location. Staking is recommended for tall varieties. Can be disbudded to encourage larger blooms.

Elephant Ears

Plant after danger of frost in rich moist soil. Some varieties take more sun than others if well watered. Cover bulbs with an inch or so of soil. May be started indoors but keep at least 50 degrees and moist. Plant bulbs or plants 3 to 4 feet apart. Water well, use a slow release fertilizer. In south can be mulched and left in ground. Dig and store or plant indoors. They also make good patio and indoor plants.

Gladiolus

Set bulbs in sunny well drained location, 4 to 6 inches deep. Stagger plant over several weeks for longer growing period. They may return for 2 or 3 years. Hardy and nanus gladioli will survive longer and may naturalize. They bloom earlier.

Gladiolus, Hardy

Plant 4 to 6 inches deep in light soil – 3 to 4 inches in heavier soil, in a sunny location and in a well-drained soil. Can be left in the garden for several years before dividing is necessary. Plant early spring months. Plants bloom in spring.

Lily

Lilies require good drainage and a sunny location. Plant 6 inches deep as they make roots above and below the bulbs. Remove spent flowers before seed can be set. Lilies make excellent cut flowers, but do not remove excessive stem as this will weaken the plant for the future.

Peonies

Plant peonies roots only about 1 to 2 inches deep in full sun in north and partial shade in south. They hate to be waterlogged.

Ranunculus

Plant in spring after soaking root clusters overnight. Set in sunny, well drained location, covering with 1to 2 inches soil (claw like roots down). They make good pot plants also. Bring in for winter.
