BOATING **YOUR GIFT SUBSCRIPTION/VOUCHER**
NEW ZEALAND

Boating New Zealand covers small powerboats, launches, and yachts — particularly new boats released onto the market, and developments in new technology such as electronics, power systems, and engines.

Our experienced columnists share their expertise on engines, do-it-yourself jobs on-board, fishing, diving, and vintage boats. We also keep our readers abreast of developments in major boating events such as the America's Cup, navigation technology, the boating industry, and offshore cruising stories across a variety of locations.
